what we believe: our guiding principles

You and God are inseparable.

We believe that the universe is spiritual and has intelligence, purpose, beauty and order. We believe that God is a loving intelligence, operating in and through all life, never separate from anyone or anything. Our beliefs are in harmony with all the world's great spiritual teachings, and we honor all paths to God.

We teach and practice a way of life where we can all learn how to live in accordance with spiritual principles. These principles, which we call the Science of Mind®, are as reliable as the laws of physical science. We believe in Cause and Effect. We teach that "It is done unto you as you believe" and "As you think, so you become." In essence, your thinking and your expectations create your reality. By studying and applying spiritual laws, you can change your unconscious beliefs and create improved conditions in your life.

Welcome Home!

Centers for Spiritual Living provides spiritual tools to transform our personal lives and help make the world a better place.

Centers for Spiritual Living is an organization of spiritual communities that honor all paths to God and can help you experience a personal relationship with God. When God is the focus of our spirituality, then other areas of our lives fall into place—we are happier, we can do more for others, be better stewards of the Earth, and bring peace and harmony to the world.

If you are in search of a spiritual community where you are respected and accepted for who you are and want the inspiration and support to grow to your highest potential, please accept our invitation to visit your local Centers for Spiritual Living community.

be part of an inclusive spiritual community

Each spiritual community within United Centers for Spiritual Living teaches a **New Thought** philosophy that incorporates affirmative prayer, meditation, healing, visioning and other spiritual tools to help you lead a spiritual life, think positively, and love deeply.

The New Thought tradition dates to the 1880s and has its roots in the Transcendentalist Movement of the 1830s. New Thought has an enduring and respected legacy that includes luminaries such as Ralph Waldo Emerson, Walt Whitman, Phineas Quimby, and Emma Curtis Hopkins. Some of the better known authors today whose writings represent our teachings are Wayne Dyer, Deepak Chopra, Michael Bernard Beckwith and Eckhart Tolle (author of *A New Earth: Awakening to Your Life's Purpose*) as well as many others.

As a member of our community, you'll find the spiritual tools to transform your personal life and make the world more peaceful, harmonious, and prosperous.

the science of mind:

the Spiritual and Material Universe are One

The Science of Mind is the core teaching of Centers for Spiritual Living; it is a philosophy that integrates spiritual truths with science and physics. In the Science of Mind, we believe that spiritual thought and science are complementary, and that science will prove what the mystics have said for thousands of years about the nature of God, human beings, and the Universe.
